Support to those affected by heavy rains in July 2020

Japan Renewable Energy Corporation ("JRE") expresses its deepest sympathy to those affected by heavy rains that occurred in Kyushu.

JRE made remittance to several municipalities in Kyushu as donation from our employees and the company with our hope to be helpful to those affected.

Our employees also delivered relief goods to the municipalities of which our employees heard needs.

It is our hope and prayer that those areas will be restored to their normal situation at the earliest.
